A battle will be fought soon somewhere between the Federal and Contederate forces. It will no doubt he a bloody and territe conflict. Among the combatants under the Confederate llag will be found hundreds of the noblest, burest, and best men in the South. Some of them must, analy of them may, fall, and when they do, wheele to the people of the North when their avengers rise and rally, as they then will.

I allude to the threat of our Secretary of War that the Confederate flog should by the first of May wave over Washington City. So long as we were acting only on the detensive, as on the defensive we also soil, whether we fire the first gun of uot, we had the sympathy of millions of enlightened minds at the North; but when it appeared that we centemplated an invasion of the North, the effect was magically sudden, and in a twinking we were left friendless in that region.
